

CEO and he is a very smart person. Upon receiving the meeting room where Jamison Firestone in the presence of six armed strangers announced that within a few months, he recorded the illegal activities of the company, namely the embezzlement of funds in the interests of William Brockley, by creating illegal schemes for payment of taxes. What's more he is not willing to participate in illegal activities that appealed to the Treasury of the United States, which, in turn, has addressed with the statement in FSB and the tax police. At these words the unknown thugs present at the conversation, began to stir. One of them suddenly drew from his pocket the certificate of the employee of FSB and the other is the certificate of the employee of tax police. They also explained that in respect of the CEO and the auditor has already issued an arrest warrant for 30 days on suspicion of committing a crime. Was at that time a presidential decree. The resolution guests, however, did not show

saying all this, Jamison had behind the whip and pulled out his stick. He said that gives the CEO and the auditor the chance to sign the documents on liquidation of CKO "Firestone Downer" and the appointment of Jamison Firestone and Andrew Sandakire members of the liquidation Committee. Head of audit Department Igor Esipov signed the documents immediately. As he experienced the prisoner immediately assessed the situation and realized that with the cops better not to argue, but intelligent CEO was police. The result was handcuffed, removed from office and put in the car. A little while around the area offered a choice of death or prison and to support their
